RE: Run Confirmation ORC Plant

Dear Mr. Cetin and Mr. Farwick,

As your partner in the field of waste heat-to-power generation, I can communicate the following:

The ORC system, ElectraTherm's "Green Machine", which was installed by your company at the Ölgeschläger site, has been working trouble-free for more than 6,500 operating hours.

We are particularly pleased by the high partial load capabilities and the robust operating performance of the plant.

Best regards,

Kunibert Ruhe
